Meeting ID: 881 8537 6882
Passcode: 006487

4/22/2021 07:00 PM

1. Call to Order, Welcome and Pledge of Allegiance, Roll Call

2. Good News

- Lynden Academy Teacher, Peter Binskin, won Praise 106.5's Gold Star teacher award!
- At the middle school, their support classes for students are showing great gains after comparing trimester 1 final grades to trimester 2. 20% of our students are engaged in on campus support on their "at home" days. After the completion of 2nd trimester, they have seen these students gain an average increase in GPA of 1.1 points out of a 4.0 system. Great job students, thank you, staff!
- FFA is getting teams ready for district and state contests and the NW Washington Fair. Layla Todd finished 1st with her Dairy Production Placement for District 1 and now goes to state FFA for judging.
- FBLA has lots of new members this year and they had to really think outside of the box to get their presentations prepared and delivered in a format that was completely new to all of them. They did it and
- Fisher wrapped up Reading Month with an amazing 117, 000 minutes of reading. That more than 81 days of straight reading if you read 24 hours a day. The top 2 winners each won a bike from the Ferndale/Lynden Masons. We had such a great time celebrating with trivia contests, book cover design contests, reading contests and a Character dress up day. now they will be preparing to do it again at the state level.
- BVE has 9 teachers trained in LTRS for phonemic awareness. The strategies learned and implemented have been transformational in teaching students to read and closing the achievement/reading gaps.
- 4th grade classes at BVE teamed up in the computer lab to create Power Point Presentations. The students used their new learnings from a 2 month, in depth study of Lewis and Clark's Expedition across the U.S. to create a slide show presentation about the journey! Each of the 10-15 slides had to contain a graphic and text. The students blew staff out of the water with their creativity, technical skills, and ability to synthesize the information that they learned. The best part was that they were so excited to share what they had created with their peers! Bravo to the 4th graders at BVE!
